

MUHAMMAD USMAN

MERN Stack Developer

ABOUT ME

I am a passionate full-stack developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). I thrive on building dynamic, scalable, and high-performing web applications. Always eager to learn, I stay current with the latest technologies to deliver modern digital experiences. I am constantly eager to learn and adapt, staying up to date with the latest technologies to deliver modern and impactful digital experiences.

MY EXPERIENCE

MERN Stack Developer

(devontix solutions)

October-2024 - Present

- Building dynamic both front-end and backend applications with Next.js, enhancing user interactivity and real-time data handling.
- Managing MongoDB databases, appwrite backend as services, ensuring data integrity, optimized query execution, and seamless integration with web applications.
- Continuously learning and adopting the latest technologies to improve full-stack development practices.

Front-End Developer

(Genius Mind Zone)

March-2024 - Sep-2024

- Assisted in the development and maintenance of web applications using Next.js.
- Gained hands-on experience in creating and managing user interfaces using Next.js.
- Ensured the applications were visually appealing and user-friendly.
- Learned and applied best practices for code optimization and performance enhancement in Next.js.

Junior Developer

(Dev Strings)

Mar-2023 - Febraury-2024

- Building dynamic front-end applications with React.js, enhancing user interactivity and real-time data handling.
- Designed and implemented RESTful APIs for effective communication between the front-end and back-end.
